

The VAR950 is a fully customizable tender from the Dutch yard Var Tenders. With its length of 9,5 meter (31ft) and a width of almost 3 meter (10ft), this aluminium boat offers you all the space and comfort you need for a perfect day or weekend on the water. The minimalistic design of the hull is the playground of our client's fantasy. The layout, motorization, colors, upholstery and equipment can be completely composed by our client.

You will be involved with your unique project from scratch on. Even no needs to worry after the delivery. You can always rely on the service and support of our skilled craftsmen.

"Var tenders, unique, just like you!"

When stepping onboard our VAR950 you will experience space and comfort. The clean lines and high level of finishing creates a peaceful surrounding without disturbing small details. Everything you touch and use feels solid and radiates quality. All parts are created with the philosophy to keep functioning year after year. Var Tenders proves that function and design do go together.

Don't hesitate and contact us to start creating your ultimate tender!
